## REMODEL ROOM BY ROOM

EDITED BY LORI ACKEN AND NICOLE BELL

In springtime, everything comes alive again — including our passion for refreshing our living spaces. Whether you're hoping to switch up a few details, make a whole-room overhaul or tackle a multiroom mega-change, check out these recent projects from local designers and get those creative juices flowing!

### BEDROOM DEEP RIVER PARTNERS

Reworking the layout to get additional space in this elegant ensuite, Deep River Partners kept the homeowners' wish for a clean, traditional aesthetic top of mind while working up the new design. The undersized and inefficient layout was redesigned to incorporate his-and-hers closets, a large luxurious bathroom, and a glass shoe closet for a functionally phenomenal design. Rounding out the room with an elevated French Transitional style, Deep River Partners modified the layout of the windows, adding two more for light and better flow, as well as the installation of beamwork on the barrel-vaulted ceiling, sophisticated lighting and double arched doorways inspired by other areas of the home.
